1h • Edited •

Just about everyone thinks they can take a decent photograph these days, but not many have the professional skills, experience and technical equipment of David Frazer. If it is true that "It takes a professional to do a professional's job", it is even more the case from 300ft in the air. This spectacular image is from a visit to Royal St. George's Golf Club this morning in preparation for our 21st Chamber Charity Golf Day there next Tuesday. David Frazer of Cloudcam has earned the right to inherit the title of Official Chamber Photographer from the late Rosie Anton and you can see why.

Many thanks to Charlotte Richardson and her team for looking after local business owners last Tuesday evening at the Margate v East Thurrock United match. . What a great night out: two splendid goals to win the match and the presentation of the signed match ball from the manager and chairman. Any company looking to provide hospitality to reward their staff or key customers should know that an afternoon or evening in the Sponsors' Lounge at The Gate can offer just as much entertainment as a long and expensive trip to London, Liverpool or Manchester.
